

FUJIFILM Blade Lite Kiosk

SLIM & STYLISH

The Blade Lite occupies 35% less space without compromising on style or performance. FUJIFILM uses modular design to maximize your returns, especially where space in store is limited.

BRAND POWER

Customers choose brands when they choose products. The FUJIFILM name is recognized worldwide as the brand that delivers quality and value – first time, every time.

POINT OF DIFFERENCE

In an online world, you need a compelling reason to get new customers instore. Ordering photos on a desktop computer or a tiny tablet won't cut it. Provide a truly enjoyable retail experience with the real thing – dedicated FUJIFILM photo kiosks!

PERFECT PAIRS

The Blade Lite is a perfect match for the FUJIFILM DX100 Smartlab. Each kiosk and printer pair can operate independently, or they can all work together to deliver multiple photo print sizes. And you can scale up at any time by adding more kiosks or printers to meet new demand.

IMAGINE... INSTORE, ONLINE, ANYWHERE!

Now you are open for business 24 hours a day, 7 days a week, 365 days a year. FUJIFILM's Imagine* software platform is the market leader – offering the best photo-ordering experience on retail kiosks, internet websites, and mobile apps. Your investment is future-proofed with new features and improvements being added throughout the life of the product.
